

WAJAHAT IRFAN

Lahore, Punjab, Pakistan | +92 323 4044233 | wajahatirfan35@gmail.com | linkedin.com/in/wajahatirfan

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 4+ years of experience in full-stack software development, system architecture, and technical leadership. Proven track record of designing and delivering scalable web applications, REST and GraphQL APIs, and cloud infrastructure for high-traffic platforms. Expertise in React, TypeScript, Next.js, Node.js, Python, and AWS. Experienced in leading cross-functional engineering teams, mentoring developers, and driving technical strategy from architecture to deployment.

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer

Jun 2025 – Present

Mulhiq

Dubai, United Arab Emirates

- Led technical architecture and long-term engineering strategy for a scalable influencer-marketing platform serving brands and content creators
- Designed and implemented high-performance backend systems for campaign management, creator onboarding, analytics, and payment workflows
- Architected scalable REST and GraphQL APIs used across dashboards, automation tools, and data-driven marketing features
- Built and optimized high-traffic frontend applications using React, TypeScript, and Next.js with a focus on performance and scalability
- Designed distributed systems using PostgreSQL, Redis, and cloud-based infrastructure to support real-time campaign tracking
- Led cloud infrastructure and DevOps strategy using AWS, Docker, CI/CD pipelines, and scalable deployment architecture
- Implemented monitoring and reliability systems using Sentry, Prometheus, and centralized logging tools
- Mentored developers and reviewed architecture decisions to maintain high engineering standards across the product

Senior Full Stack Developer

Nov 2025 – Present

Runrly

Toronto, ON, Canada

- Developed and optimized the main marketing dashboard used to manage campaigns and performance analytics
- Built scalable REST and GraphQL APIs for campaign automation, user management, and data tracking
- Integrated third-party marketing platforms such as Google Ads and Meta Ads for real-time campaign data
- Managed deployments and infrastructure using AWS, Docker, and CI/CD pipelines
- Implemented monitoring and logging using Sentry, Prometheus, and Grafana

Senior Full Stack Developer

Feb 2025 – Present

Midcreatives

Quebec, Canada

- Led end-to-end development of scalable full-stack applications for campaign management, client dashboards, and content-driven platforms
- Designed and implemented robust REST and GraphQL APIs with a focus on performance, security, and scalability

- Architected reusable frontend systems using React, Next.js, and TypeScript to improve development speed and maintainability
- Optimized database performance and backend architecture for high-traffic marketing platforms
- Integrated third-party services including Stripe, Google Ads, and Meta Ads for automation and real-time data tracking
- Owned cloud infrastructure and deployment workflows using AWS, Docker, and CI/CD pipelines

Mid-Level Full Stack Developer

Nov 2023 – Mar 2026

GGDEN

Lahore, Punjab, Pakistan

- Led a team of developers, providing guidance and mentorship to ensure project objectives were met efficiently
- Leveraged React.js, Python, Django, Node.js, and AWS to spearhead the development and optimization of web applications
- Implemented best practices in software architecture, coding standards, and version control to streamline development processes
- Collaborated with cross-functional teams including UX/UI designers, product managers, and QA testers to deliver high-quality solutions
- Conducted code reviews and performance evaluations to uphold coding standards and project timelines
- Championed the adoption of emerging technologies and methodologies to improve development practices

Mid-Level Full Stack Developer

Nov 2021 – Mar 2024

GGDEN

Lahore, Punjab, Pakistan

- Collaborated with senior developers to develop and enhance web applications using agile methodologies
- Built engaging user interfaces using HTML, CSS, and JavaScript; implemented back-end functionalities with Node.js and Django
- Participated in the full development lifecycle from ideation to deployment
- Contributed to brainstorming sessions, code reviews, and innovative technical solutions

Junior Full Stack Developer

May 2019 – Nov 2021

TTS Tech Solutions

Lahore, Pakistan

- Developed and maintained web applications, contributing to both front-end and back-end development
- Built responsive, user-friendly interfaces using HTML, CSS, JavaScript, and React.js
- Assisted in back-end development using Node.js and Express.js for server-side applications
- Worked with MongoDB, MySQL, and PostgreSQL for efficient data storage and retrieval

Graphic Designer

Jan 2018 – Mar 2019

Babyplanet.pk

Lahore, Punjab, Pakistan

- Created engaging visual content for digital and print materials including social media graphics, banners, and product packaging
- Utilized Adobe Photoshop, Illustrator, and InDesign to design and refine graphics and layouts

Graphic Designer Intern

Sep 2017 – Dec 2017

PITB Incubation Wing

Lahore, Punjab, Pakistan

- Produced designs for digital and print platforms including social media graphics, brochures, and event materials
- Collaborated with the marketing team to translate concepts into compelling visual narratives

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, SQL, HTML5, CSS3, Java, C#, Ruby

Frontend: React.js, Next.js, Vue.js, AngularJS, React Native, Redux, Tailwind CSS, Bootstrap, SASS, Webpack

Backend: Node.js, Express.js, NestJS, Django, Ruby on Rails, REST APIs, GraphQL

Databases: PostgreSQL, MongoDB, MySQL, Redis

Cloud & DevOps: AWS (EC2, S3, RDS), Docker, Nginx, CI/CD Pipelines, GitHub Actions, Linux

Monitoring & Observability: Sentry, Prometheus, Grafana, LogRocket

Tools & Platforms: Git, GitHub, Shopify, WordPress, Figma, Adobe Creative Suite (Photoshop, Illustrator, XD, Premiere Pro, After Effects)

Integrations: Stripe API, Google Ads API, Meta Ads API

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Sep 2017 – Nov 2021

University of Central Punjab (UCP), Lahore, Pakistan

KEY COMPETENCIES

Technical Architecture • System Design • Full-Stack Development • API Design • Cloud Infrastructure • Team Leadership • Agile Methodologies • Code Review • Performance Optimization • Cross-Functional Collaboration • DevOps • Mentoring • Project Management • Scalability Planning
